October 4, 2021

Dear Families of 6th Grade Students,

It is with great excitement to introduce our newest member of the West Orient Staff, Ms. Madison Plummer. She will be replacing Mrs. Moffat as the 6th grade science teacher for the remainder of the school year. Mrs. Moffat has been substituting since the beginning of this school year until we were able to find a permanent replacement.

Ms. Plummer is a Sam Barlow High School graduate and comes to West Orient with a strong background in the sciences. She has a Bachelor Degree in Science with a Minor in Biology from Portland State University and a Master of Science degree in Conservation Biology from The University of West Alabama.

Ms. Plummer is passionate about the sciences. Her background in science includes various academic studies such as biology, science education, zoology, geology, oceanography, geography, research, and many other conservation topics.

Ms. Plummer will be at West Orient Middle School this week observing, working with staff and teachers on the 6th grade team, and completing her orientation. Ms. Plummer will officially begin teaching in the classroom on October, 11.

I have no doubt that Ms. Plummer will be a great addition to our school and community.

Sincerely,

Elise Catanese
Principal, West Orient Middle School
