

Site Council Meeting Minutes 1/4/21

Members present: Lenka Cervenkova, Kees Keizer, Tori Maehara, Kim Cortes Martinez, Frank Thomas, Mary Volk

Tori voiced some concerns that we are a week out from the restorative justice effort and we still have some pieces up in the air

Kees said Mary was probing for some feedback from students and there were some profound issues brought up by students and so it could be really powerful

Kees also said he's got an idea for a book that could be read by the group that could inform some of this work

Kees also said he put together a funding request for this work. Here's the link:

dit

everyone in the group said it's look good

Tori said some of the different department could propose funding from their portion of department Site Council funds to help with some of the funding, and maybe some parties around the district could contribute as well, but we are close enough we should be good

Mary said Brink has taken over some of the efforts and hopefully those efforts dovetail with our established mission. Mary will be interviewed by GNN for this work. Also she's going to share out at an assembly and give out the notecards for feedback from students.

Kees changed some of the wording on the cards

Mary wants to make sure the mission of the feedback card effort doesn't get taken away from the original impetus.

Kees says tomorrow we need to get funding approval

We're recruiting more parent to be on Site Council second semester, especially ones from different backgrounds than have historically been on site council

Kees is looking at the first chapter of this book for small steps we can take to get started on this work

Lenka spent a day in the freshmen success class with Steven and has some thoughts to share from that experience
